## Our Core Values

### 1. Professionalism:

At all times we engage professionals and experts who demonstrate respect, competence, accountability and dedication in their work. We evince flexibility and resilience in the face of change and challenges and consistently achieving high standards serving our clients.

### 2. Team Work and Continuous Improvement:

At Alphajiri Engineering, we work as a team and enhance improvement. We ensure that every member of the team is aligned with our client's needs and expectations, work collaboratively to pool our skills and expertise to meet or exceed client demand. As a team we gather insights from interactions with our clients to identify areas of improvement and refine the services to meet their current and future need.

### 3. Passion

Passion fuels relentless pursuit of our mission and vision. We are a Customer-Centric company that takes its time to understand client at a profound level. We are authentic in our services and always focused on continuous growth.

### 4. Integrity

We are honest, transparent and committed to ethical conduct. We operate with the best interest of the client in mind.

### 5. Communication

We take communication as the pillar of our philosophy. Our communication channels are always open (Emails, video conference meetings, calls, face to face meetings and any other channel that the client prefers to use). In order to forge a long-term partnership, we listen to our client to understand the needs, goals and engage the client in every stage of their project. We are always open for feedback.

### 6. Customer Satisfaction

We are customer driven. Our inspiration is fostering long-term loyalty and trust through delivering exceptional services and experiences. We prioritize in customer contentment by offering excellent services to meet and exceed customer's expectations.

## Why Choose Us?

At Alphajiri Engineering, we have the capacity to design, construct or renovate residential or office buildings, road works and water engineering works. We have put together a strong project team with the expertise to meet all our client needs.
